Environmental Review for Activity/Project that is Categorically Excluded Subject to Section 58.5 Pursuant to 24 CFR 58.35(a)

Project Information

Project Name:

Anacortes-Housing-Authority-Asbestos-Abatement

HEROS Number: 900000010005127

State / Local Identifier:

Washington

Project Location:

719 Q Ave, Anacortes, WA 98221

Additional Location Information:

The Harbor House is located in the downtown central core area of Anacortes easily accessible to all shopping and entertainment activities

Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

This project consists of removing worn asbestos flooring in a 49 unit apartment complex for low income elderly/disabled individuals. When an apartment becomes vacant, the apartment will be made ready for force account labor (housing authority employees) by removing all interior doors, trim, toilet, hot water tank and miscellaneous items necessary to allow for the abatement contractor to remove all flooring and install environmentally safe linoleum and carpeting in accordance with L&I abatement standards. There will be no ground disturbance nor expansion of the existing units for this project and the project will remain a low income multifamily housing apartment for elderly/disabled individuals.

Level of Environment Review Determination:

Categorically Excluded per 24 CFR 58.35(a), and subject to laws and authorities at §58.5: 58.35(a)(3)(ii)

Funding Information

Grant Number	HUD Program	Program Name	Funding Amount
B-15-MC-53-		Community Development Block Grants	\$40,425.00
0018	CPD	(CDBG) (Entitlement)	

Estimated Total HUD Funded Amount:

\$40,425.00

Estimated Total Project Cost [24 CFR 58.2 (a) (5)]:

\$199,647.00

Mitigation Measures and Conditions [CFR 1505.2(c)]:

Summarized below are all mitigation measures adopted by the Responsible Entity to reduce, avoid or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure or Condition	Comments on Completed Measures	Complete
Contamination and Toxic Substances	Compliance will be achieved by removal of all asbestos flooring by an EPA certified asbestos removal contractor. All asbestos flooring will be replaced with environmentally safe flooring. All residents will be located to empty adjacent apartments during the removal process.	N/A	

This categorically excluded activity/project converts to EXEMPT per Section 58.34(a)(12), because it does not require any mitigation for compliance with any listed statutes or authorities, nor requires any formal permit or license; Funds may be committed and drawn down after certification of this part for this (now) EXEMPT project; OR This categorically excluded activity/project cannot convert to Exempt status because one or more statutes or authorities listed at Section 58.5 requires formal consultation or mitigation. Complete consultation/mitigation protocol requirements, publish NOI/RROF and obtain "Authority to Use Grant Funds" (HUD 7015.16) per Section 58.70 and 58.71 before committing or drawing down any funds; OR This project is not categorically excluded OR, if originally categorically excluded, is now subject to a full Environmental Assessment according to Part 58 Subpart E due to extraordinary circumstances (Section 58.35(c)).

Compliance with 24 CFR §50.4, §58.5 and §58.6 Laws and Authorities

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §50.4, §58.5, and §58.6	Are formal compliance steps or mitigation required?	Compliance determination (See Appendix A for source determinations)
STATUTES, EXECUTIVE ORD	DERS, AND REGULATIO	ONS LISTED AT 24 CFR §50.4 & § 58.6
Airport Hazards Clear Zones and Accident Potential Zones; 24 CFR Part 51 Subpart D	□ Yes ☑ No	The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements.
Coastal Barrier Resources Act Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]	□ Yes ☑ No	
Flood Insurance Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001- 4128 and 42 USC 5154a]	□ Yes ☑ No	The structure or insurable property is not located in a FEMA-designated Special Flood Hazard Area. While flood insurance may not be mandatory in this instance, HUD recommends that all

		insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). The project is in compliance with flood insurance requirements.FEMA Flood Plan Map # 5303170040AEffective Date:
		September 17, 2003Panel 40
STATUTES, EXECUTIVE ORD		ONS LISTED AT 24 CFR §50.4 & § 58.5
Air Quality Clean Air Act, as amended, particularly section 176(c) & (d); 40 CFR Parts 6, 51, 93	□ Yes ☑ No	Based on the project description, this project includes no activities that would require further evaluation under the Clean Air Act. The project is in compliance with the Clean Air Act.
Coastal Zone Management Act Coastal Zone Management Act, sections 307(c) & (d)	□ Yes ☑ No	This project is not located in or does not affect a Coastal Zone as defined in the state Coastal Management Plan. The project is in compliance with the Coastal Zone Management Act. This project is a minor rehabilitation project.
Contamination and Toxic Substances 24 CFR 50.3(i) & 58.5(i)(2)]	☑ Yes □ No	Site contamination was evaluated as follows: Remediation or clean-up plan. On-site or nearby toxic, hazardous, or radioactive substances were found that could affect the health and safety of project occupants or conflict with the intended use of the property. The adverse environmental impacts can be mitigated. With mitigation, identified in the mitigation section of this review, the project will be in compliance with contamination and toxic substances requirements. The flooring is assumed to be asbestos and the mitigation will remove all asbestos flooring by an EPA certified asbestos contractor and will be replaced with environmentally safe flooring.
Endangered Species Act Endangered Species Act of 1973, particularly section 7; 50 CFR Part 402	□ Yes ☑ No	This project will have No Effect on listed species due to the nature of the activities involved in the project. This project is in compliance with the Endangered Species Act.The project consists of interior renovations to

		existing buildings only and will not affect any species or habitats.
Explosive and Flammable Hazards Above-Ground Tanks)[24 CFR Part 51 Subpart C	☐ Yes ☑ No	Based on the project description the project includes no activities that would require further evaluation under this section. The project is in compliance with explosive and flammable hazard requirements. Reisners Fuel Distributors Diesel and Kerosene containers are located 2,078 feet from project and the city has determined, based on the ASD Assessment Tool, that they do not present any risk to the residents of the proposed project site. No other sites adjacent to this proposed project pose any threats of explosive or flammable hazards.
Farmlands Protection Farmland Protection Policy Act of 1981, particularly sections 1504(b) and 1541; 7 CFR Part 658	□ Yes ☑ No	This project does not include any activities that could potentially convert agricultural land to a non-agricultural use. The project is in compliance with the Farmland Protection Policy Act.The project is located within an urban settings.
Floodplain Management Executive Order 11988, particularly section 2(a); 24 CFR Part 55	☐ Yes ☑ No	This project does not occur in a floodplain. The project is in compliance with Executive Order 11988.See Panel 0040A, Map 5303170040A, 9/17/2003, attached.
Historic Preservation National Historic Preservation Act of 1966, particularly sections 106 and 110; 36 CFR Part 800	□ Yes ☑ No	Based on the project description the project has No Potential to Cause Effects. The project is in compliance with Section 106. The apartment complex was constructed in 1974 and is less than 45 years old. There will be no ground disturbance that would initiate an archaeological review.
Noise Abatement and Control Noise Control Act of 1972, as amended by the Quiet Communities Act of 1978; 24 CFR Part 51 Subpart B	□ Yes ☑ No	The project is modernization or minor rehabilitation of an existing residential property. A Preliminary Screening was performed, and found the following: the property is located in a minor street in downtown Anacortes with a road DNL calculation of 29.1. The closest working

	1	1	
		railroad is 12,710 feet from the project; the NAS Whidbey Air Station is 10.5 miles from the project but their flight path does not include flights directly over the project. See attached flight map for NAS Whidbey. The project also will not generate any noise above acceptable levels. The project is in compliance with HUD's Noise regulation without mitigation.	
Sole Source Aquifers Safe Drinking Water Act of 1974, as amended, particularly section 1424(e); 40 CFR Part 149	□ Yes ☑ No	The project is not located on a sole source aquifer area. The project is in compliance with Sole Source Aquifer requirements. The City derives its drinking water from the Skagit River which is approximately 12 miles east of the site.	
Wetlands Protection Executive Order 11990, particularly sections 2 and 5	□ Yes ☑ No	Based on the project description this project includes no activities that would require further evaluation under this section. The project is in compliance with Executive Order 11990. The project involves only interior rehabilitation and does not involved any expansion of the footprint or ground disturbance.	
Wild and Scenic Rivers Act Wild and Scenic Rivers Act of 1968, particularly section 7(b) and (c)	□ Yes ☑ No	This project is not within proximity of a NWSRS river. The project is in compliance with the Wild and Scenic Rivers Act. The project is located approximately 12 miles from the Skagit River which is designated a Wild and Scenic River in the Skagit County.	
HUD HO	DUSING ENVIRONMEN	ITAL STANDARDS	
ENVIRONMENTAL JUSTICE			
Environmental Justice Executive Order 12898	□ Yes ☑ No	No adverse environmental impacts were identified in the project's total environmental review. The project is in compliance with Executive Order 12898. The project is a housing apartment complex that serves low income elderly/disabled individuals.	

Mitigation Measures and Conditions [40 CFR 1505.2(c)]:

Summarized below are all mitigation measures adopted by the Responsible Entity to reduce, avoid or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure or Condition	Comments on Completed Measures	Complete
Contamination and Toxic Substances	Compliance will be achieved by removal of all asbestos flooring by an EPA certified asbestos removal contractor. All asbestos flooring will be replaced with environmentally safe flooring. All residents will be located to empty adjacent apartments during the removal process.	N/A	

Mitigation Plan

The Anacortes Housing Authority Director, Tee McCallum, will coordinate the mitigation measures to remove the asbestos flooring. An EPA certified asbestos contractor will be hired to perform all mitigation work of removing the asbestos. Work will begin shortly after approval from HUD on the environmental review record and will be completed no later than June 30, 2016. All work will be monitored by City officials and documented in the city files.

APPENDIX A: Related Federal Laws and Authorities

Airport Hazards

General policy	Legislation	Regulation
It is HUD's policy to apply standards to		24 CFR Part 51 Subpart D
prevent incompatible development		
around civil airports and military airfields.		

1. To ensure compatible land use development, you must determine your site's proximity to civil and military airports. Is your project within 15,000 feet of a military airport or 2,500 feet of a civilian airport?

✓ No

Based on the response, the review is in compliance with this section. Document and upload the map showing that the site is not within the applicable distances to a military or civilian airport below

Yes

Screen Summary

Compliance Determination

The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements.

Federal assistance to applicant	Coastal Zone Management	15 CFR Part 930
agencies for activities affecting	Act (16 USC 1451-1464),	
any coastal use or resource is	particularly section 307(c)	
granted only when such	and (d) (16 USC 1456(c) and	
activities are consistent with	(d))	
federally approved State		
Coastal Zone Management Act		
Plans.		

1. Is the project located in, or does it affect, a Coastal Zone as defined in your state Coastal Management Plan?

Yes

✓ No

Based on the response, the review is in compliance with this section. Document and upload all documents used to make your determination below.

Screen Summary

Compliance Determination

This project is not located in or does not affect a Coastal Zone as defined in the state Coastal Management Plan. The project is in compliance with the Coastal Zone Management Act. This project is a minor rehabilitation project.

Supporting documentation

Are formal compliance steps or mitigation required?

Yes

Contamination and Toxic Substances

General requirements	Legislation	Regulations
It is HUD policy that all properties that are being		24 CFR 58.5(i)(2)
proposed for use in HUD programs be free of		24 CFR 50.3(i)
hazardous materials, contamination, toxic		
chemicals and gases, and radioactive		
substances, where a hazard could affect the		
health and safety of the occupants or conflict		
with the intended utilization of the property.		

1. How was site contamination evaluated? Select all that apply. Document and upload documentation and reports and evaluation explanation of site contamination below.

American Society for Testing and Materials (ASTM) Phase I Environmental Site Assessment (ESA)

ASTM Phase II ESA

- Remediation or clean-up plan
 ASTM Vapor Encroachment Screening
 None of the Above
- 2. Were any on-site or nearby toxic, hazardous, or radioactive substances found that could affect the health and safety of project occupants or conflict with the intended use of the property? (Were any recognized environmental conditions or RECs identified in a Phase I ESA and confirmed in a Phase II ESA?)

No

✓ Yes

3. Mitigation

Document and upload the mitigation needed according to the requirements of the appropriate federal, state, tribal, or local oversight agency. If the adverse environmental effects cannot be mitigated, then HUD assistance may not be used for the project at this site.

Can adverse environmental impacts be mitigated?

Adverse environmental impacts cannot feasibly be mitigated.

- Yes, adverse environmental impacts can be eliminated through mitigation. Document and upload all mitigation requirements below.
- 4. Describe how compliance was achieved in the text box below. Include any of the following that apply: State Voluntary Clean-up Program, a No Further Action letter, use of engineering controls, or use of institutional controls.

Compliance will be achieved by removal of all asbestos flooring by an EPA certified asbestos removal contractor. All asbestos flooring will be replaced with environmentally safe flooring. All residents will be located to empty adjacent apartments during the removal process.

If a remediation plan or clean-up program was necessary, which standard does it follow?

✓ Complete removal

Risk-based corrective action (RBCA)

Screen Summary

Compliance Determination

Site contamination was evaluated as follows: Remediation or clean-up plan. On-site or nearby toxic, hazardous, or radioactive substances were found that could affect the health and safety of project occupants or conflict with the intended use of the property. The adverse environmental impacts can be mitigated. With mitigation, identified in the mitigation section of this review, the project will be in compliance with contamination and toxic substances requirements. The flooring is assumed to be asbestos and the mitigation will remove all asbestos flooring by an EPA certified asbestos contractor and will be replaced with environmentally safe flooring.

Noise Abatement and Control

General requirements	Legislation	Regulation
HUD's noise regulations protect	Noise Control Act of 1972	Title 24 CFR 51
residential properties from		Subpart B
excessive noise exposure. HUD	General Services Administration	
encourages mitigation as	Federal Management Circular	
appropriate.	75-2: "Compatible Land Uses at	
	Federal Airfields"	

1. What activities does your project involve? Check all that apply:

New construction for residential use

✓ Rehabilitation of an existing residential property

NOTE: For modernization projects in all noise zones, HUD encourages mitigation to reduce levels to acceptable compliance standards. See 24 CFR 51 Subpart B for further details. The definition of "modernization" is determined by program office guidance.

A research demonstration project which does not result in new construction or reconstruction

An interstate land sales registration

Any timely emergency assistance under disaster assistance provision or appropriations which are provided to save lives, protect property, protect public health and safety, remove debris and wreckage, or assistance that has the effect of restoring facilities substantially as they existed prior to the disaster None of the above

2. Do you have standardized noise attenuation measures that apply to all modernization and/or minor rehabilitation projects, such as the use of double glazed windows or extra insulation?

Yes

✓ No

3. Complete the Preliminary Screening to identify potential noise generators in the vicinity (1000' from a major road, 3000' from a railroad, or 15 miles from an airport).

Describe findings of the Preliminary Screening:

the property is located in a minor street in downtown Anacortes with a road DNL calculation of 29.1. The closest working railroad is 12,710 feet from the project; the NAS Whidbey Air Station is 10.5 miles from the project but their flight path does not include flights directly over the project. See attached flight map for NAS Whidbey. The project also will not generate any noise above acceptable levels

Screen Summary

Compliance Determination

The project is modernization or minor rehabilitation of an existing residential property. A Preliminary Screening was performed, and found the following: the property is located in a minor street in downtown Anacortes with a road DNL calculation of 29.1. The closest working railroad is 12,710 feet from the project; the NAS Whidbey Air Station is 10.5 miles from the project but their flight path does not include flights directly over the project. See attached flight map for NAS Whidbey. The project also will not generate any noise above acceptable levels. The project is in compliance with HUD's Noise regulation without mitigation.

Sole Source Aquifers

General requirements	Legislation	Regulation
The Safe Drinking Water Act of 1974	Safe Drinking Water	40 CFR Part 149
protects drinking water systems	Act of 1974 (42 U.S.C.	
which are the sole or principal	201, 300f et seq., and	
drinking water source for an area	21 U.S.C. 349)	
and which, if contaminated, would		
create a significant hazard to public		
health.		

1. Is the project located on a sole source aquifer (SSA)?

A sole source aquifer is defined as an aquifer that supplies at least 50 percent of the drinking water consumed in the area overlying the aquifer. This includes streamflow source areas, which are upstream areas of losing streams that flow into the recharge area.

Based on the response, the review is in compliance with this section. Document and upload documentation used to make your determination, such as a map of your project (or jurisdiction, if appropriate) in relation to the nearest SSA and its source area, below.

Yes

Screen Summary

Compliance Determination

The project is not located on a sole source aquifer area. The project is in compliance with Sole Source Aquifer requirements. The City derives its drinking water from the Skagit River which is approximately 12 miles east of the site.

Are formal compliance steps or mitigation required?

Yes

Wetlands Protection

General requirements	Legislation	Regulation
Executive Order 11990 discourages direct or	Executive Order	24 CFR 55.20 can be
indirect support of new construction impacting	11990	used for general
wetlands wherever there is a practicable		guidance regarding
alternative. The Fish and Wildlife Service's		the 8 Step Process.
National Wetlands Inventory can be used as a		
primary screening tool, but observed or known		
wetlands not indicated on NWI maps must also		
be processed Off-site impacts that result in		
draining, impounding, or destroying wetlands		
must also be processed.		

1. Does this project involve new construction as defined in Executive Order 11990, expansion of a building's footprint, or ground disturbance? The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of the Order

V	N	റ

Based on the response, the review is in compliance with this section.

Yes

Screen Summary

Compliance Determination

Based on the project description this project includes no activities that would require further evaluation under this section. The project is in compliance with Executive Order 11990. The project involves only interior rehabilitation and does not involved any expansion of the footprint or ground disturbance.

Wild and Scenic Rivers Act

General requirements	Legislation	Regulation
The Wild and Scenic Rivers Act	The Wild and Scenic Rivers	36 CFR Part 297
provides federal protection for	Act (16 U.S.C. 1271-1287),	
certain free-flowing, wild, scenic	particularly section 7(b) and	
and recreational rivers	(c) (16 U.S.C. 1278(b) and (c))	
designated as components or		
potential components of the		
National Wild and Scenic Rivers		
System (NWSRS) from the effects		
of construction or development.		

Anacortes, WA

1. Is your project within proximity of a NWSRS river?

Yes, the project is in proximity of a Designated Wild and Scenic River or Study Wild and Scenic River.

Yes, the project is in proximity of a Nationwide Rivers Inventory (NRI) River.

Screen Summary

Compliance Determination

This project is not within proximity of a NWSRS river. The project is in compliance with the Wild and Scenic Rivers Act. The project is located approximately 12 miles from the Skagit River which is designated a Wild and Scenic River in the Skagit County.

Environmental Justice

General requirements	Legislation	Regulation
Determine if the project	Executive Order 12898	
creates adverse environmental		
impacts upon a low-income or		
minority community. If it		
does, engage the community		
in meaningful participation		
about mitigating the impacts		
or move the project.		

HUD strongly encourages starting the Environmental Justice analysis only after all other laws and authorities, including Environmental Assessment factors if necessary, have been completed.

1.	Were any adverse environmental impacts identified in any other compliance review
portion	of this project's total environmental review?

Yes

✓ No

Based on the response, the review is in compliance with this section.

Screen Summary

Compliance Determination

No adverse environmental impacts were identified in the project's total environmental review. The project is in compliance with Executive Order 12898. The project is a housing apartment complex that serves low income elderly/disabled individuals.
